PRESIDENT'S REPORT

Looking back at the past 12 months, it has been a busy year. We continued to work with our Atlantic partners to organize the Atlantic Recreation and Facilities Conference and our national partners to advocate for more funding for the sector. Among other highlights, we worked on two new projects, the go!TryPEI campaign over the summer which saw our summer student try different activities across PEI, and a new project to offer a pedestrian safety course to elementary school kids.

Recognizing the need to ensure our recreation spaces and programs are safe and welcoming to everyone and inspired by the work done by Recreation Nova Scotia, our board of directors began to work on an Anti-Racism Charter. With the approval of the members at our AGM, a working group was formed to write a PEI version of the Charter and launch it for use by our members and other interested groups. We are also drafting our own Anti-Racism action plan and coordinating an awareness campaign to be featured in our facilities. This is difficult but important work that will make our sector better for everyone.

Let me include some notes of thanks. I would like to, first of all, express my gratitude to the members and to the Board for the great teamwork and for their invaluable support and advice throughout.

I would also like to thank the Province of PEI for their ongoing commitment and continued financial contribution to Recreation PEI, go!PEI and all the other important initiatives carried out by this organization. Special thanks to the Honourable Minister Cory Deagle, John Morrison, and Francois Caron for the ongoing leadership and support of the work our sector does and for seeing the value of the impact we have on the lives of Islanders.

I would further like to thank Valerie and her team for all the work that they have done to facilitate the work and efficient running of Recreation PEI. They are great leaders and get things done.

In closing, I would like to thank all my colleagues, as well as all stakeholders for the confidence and trust that you have placed in me, and it has been a privilege and honor for me to have worked closely with all of you throughout my term. I would like to welcome the new Board members, and I look forward to continuing to work with all of you.

Thank you.

Kim Meunier, President

PEI PARKS & RECREATION
PROFESSIONALS

"There's nothing more fulfilling than knowing the work you do is providing opportunities for individuals to experience a better quality of life through participation in community recreation."

KIM MEUNIER
Manager, Parks & Recreation -
Town of Cornwall

EXECUTIVE DIRECTOR'S REPORT

Recreation is a key public service which contributes to the health and wellbeing of Islanders and communities. Thank you to all arena and recreation facility staff and volunteers who have worked tirelessly over the past year to keep Islanders active in your communities. Thank you to all the recreation and parks staff and volunteers who worked to offer interesting and diverse programming in your communities. Demand for recreation services continues to rise while the number of those volunteering is declining making the work of recreation staff and volunteers even more valuable. We can't play without you!

Recreation PEI remains an active member of the Canadian Parks and Recreation Association (CPRA), who are vocal advocates for our sector at the federal level. With CPRA, we participated in a Day on the Hill in the fall during which we met with politicians of all parties to champion recreation and request increased funding for key needs including aging infrastructure and the shortage of lifeguards across Canada. We continue to maintain a strong partnership with other provincial and territorial members. This is particularly true with

our Atlantic counterparts with whom we work closely to deliver the Atlantic Recreation and Facilities Conference as well as sharing resources and knowledge. We also foster relationships with various groups within PEI and throughout Canada to further our work in implementing the goals of the “Framework for Recreation in Canada”, which remains our guiding policy.

Our work could not occur without the valuable support and collaboration of the PEI Department of Fisheries, Tourism, Sport, and Culture - Sport, Recreation, and Physical Activity Division and their staff. Our board was pleased to meet with Department Minister, the Honourable Cory Deagle in the summer and to receive increased financial support to help our organization keep up with current demands. We were fortunate to oversee several projects this year with provincial funding support, including the clinical exercise program, the pedestrian safety project, Physical Literacy 4 Communities, the Anti-Racism Charter launch, and ongoing work on the trail mapping program.

Thank-you to all the staff who work hard to connect with our members including Griffin Hughes and Ergita Dema, who both served as Project Coordinator; Chryshawnda Adams, who managed the go!PEI initiative; Dave Tompkins, who trained as our new playground inspector; Andrew Stetson, who pioneered the role of Communications Coordinator, and Shane Bernabe and Julianna Simpson who worked on special projects. All their efforts served to advance the recreation and physical activity sector this year.

Thank you also to the Board of Directors for all their work in guiding the organization and your vision for the future as we work together to make recreation safe and welcoming to everyone.

Valerie Vuillemot, Executive Director

PROJECTS REPORT

Priority 1: Active Living - To Foster Active, Healthy Living Through Recreation

go!PEI Initiative

This year, go!PEI continued its efforts to provide spaces and opportunities for islanders to foster their competence to move more. Our partners collectively delivered more than 75 programs including “Learn To” sessions for running, skating, disc golf and pickleball as well as senior’s fitness classes and weekly walking or hiking groups. Summer day camps for children also remain popular. Go!PEI continues to meet the demands of the community in physical activity opportunities and strives to increase the motivation of Islanders by building their confidence in movement.

Go!PEI is currently delivered by the following 7 delivery partners: the Eastern, Central, and Western Sport and Recreation Councils; the cities of Charlottetown and Summerside, and the towns of Cornwall and Stratford. Talks began with the Town of Three Rivers to be added as the 8th go!PEI delivery partner in 2024-2025.

In addition, go!PEI is a connection point for all recreation programmers across PEI and began to offer quarterly meet-ups, mostly virtual, to allow opportunities for those in the sector to learn from each other and collaborate on different initiatives.

Go!TryPEI

In the summer of 2023, Recreation PEI hired a youth to create videos highlighting different programs and activities that Islanders could enjoy. Shane Bernabe was hired through the Youth Employment Exchange program from CPRA. Over the summer, Shane connected with different groups and participated in a variety of activities including: disc golf, indoor climbing, aquafit, para-cycling, and stand-up paddle boarding. He created videos and other social media content to promote these places and programs to inspire Islanders to try new activities.

go!Play After School Program

go!Play is an after-school program delivered at rural elementary schools in partnership with our Western, Central, and Eastern Regional Sport and Recreation Councils. It is designed to give children more opportunities to be physically active during the time slot directly after school. The program is delivered free of charge for children in k-6 or k-8 schools.

During the year, our go!Play programs continued to be a success. Regional partners in the western, central, and eastern districts have collectively distributed programs to 6 schools and offered their services to other after school programs. The program is challenged to find quality leaders in the after-school time. This prevents the delivery of the program in some locations.

Physical Literacy

Recreation PEI leads a Physical Literacy Working Group which includes members from Sport PEI, Special Olympics PEI, Parasport & Recreation PEI, the Aboriginal Sport Circle, and the Department of Fisheries, Tourism, Sport & Culture. The working group members are key partners in the delivery of provincially funded physical literacy initiatives as well as the ongoing participation in the Physical Literacy for Communities project in partnership with Sport for Life. This project aims to engage a diverse range of groups interested in community health and the benefits offered by increased physical literacy through education, evaluation training, and other resources.

In November, we delivered a Sport for Life Physical Literacy training session to early childhood educators at the Early Childhood Development Association of PEI's annual conference. All 38 ECEs who attended also received an equipment kit for their centre to help build early movement skills.

Three representatives attended the Sport for Life Summit held in Ottawa in January: the Executive Directors of the Western and Central Region Sport & Recreation Council, Cali Pineau, and Jessica Corbett, and the Project Coordinator of Recreation PEI, Ergita Dema. Additionally, in March, we delivered the PL101 Course – An Introduction to Physical Literacy, offering an overview of the concept of physical literacy to our working group and their network.

An action plan was developed to determine priority areas moving forward including increasing awareness of the importance of physical literacy, training program leaders on how to incorporate the principles into their delivery, and ensuring it is a policy consideration for organizations whose clientele are primarily children.

The existing working group continued to deliver presentations on physical literacy to community groups as well as to the Sport and Recreation Management students at Holland College again this year. Recreation PEI also have formed an Atlantic group to discuss physical literacy and ways to work together to increase knowledge of the concept.

Canadian Tire Jumpstart Programs

Recreation PEI received a Canadian Tire Jumpstart Community Development Grant of \$4500 this fiscal year. With this funding, we were able to support our community partners in the delivery of our free 'I Love to Skate' programming throughout the province. Three of our partners: the Eastern Region Sport & Recreation Council, Western Region Sport & Recreation Council, and the City of Charlottetown were involved in the delivery of the "I Love to Skate" sessions. Over 6 weeks, these sessions supported 150 children aged 4-18 in financial need, with one session held each week.

Active Transportation

Through the provincial Active Transportation Fund, Recreation PEI received a grant to develop a pedestrian safety program for elementary-aged children. An intern from the University of New Brunswick, Julianna Simpson, worked on the initial stages of the project which involved extensive research into existing programs to determine the shape of the PEI program.

Following this review, Recreation PEI signed an agreement with the Ottawa Safety Council to deliver their WalkSafe program in PEI. The WalkSafe program educates children on road safety, helping them gain knowledge and skills to prevent injury. The presentations include topics such as: walking safely near traffic, intersections and crosswalks, how to read traffic and pedestrian lights, the 5 steps to crossing the street, visual barriers, the dangers of distraction and stopping distances for vehicles.

Recreation PEI recruited leaders to deliver the program in elementary schools across PEI. The training is scheduled in the spring of 2024. These presentations will be offered to schools at no cost in both the spring and the fall.

Using the go!PEI brand, a series of radio commercials will also be developed to deliver key messages on safely walking to school and safely driving while students are on the move. These will air on Stingray radio stations during the morning commute.

Priority 2: Connecting People & Nature - To Connect People to Nature Through Recreation

Trail Mapping Project

Recreation PEI continued a project on behalf of the Department of Fisheries, Tourism, Sport & Culture-Sport, Recreation, and Physical Activity Division to create accurate GPS maps of all publicly accessible trails on PEI.

In April 2023, we were able to publicly launch the map which includes municipal, provincial, and federal trails as well as rural trails owned or managed by organizations such as Island Trails or watershed groups. It also includes Active Transportation paths throughout the province. This is the first time all of these trails will be together in one application. There may be opportunities to continue to build on this map in the future to accurately capture all outdoor recreation spaces such as boat launches, disc golf courses, etc.

Thanks to Dan MacDonald, our provincial partner who cleans the data, maintains the map on the government servers, and allows it to be open to the general public. Work on the map is ongoing as new trails and AT pathways are built throughout the province.

Outdoor Recreation Opportunities

As part of the trail mapping project, Recreation PEI oversaw a number of programming initiatives to encourage more people to get active outside. In the spring, we delivered a Field Leader- Hiking course at Forestview Trail near O’Leary. Five people attended the training including 2 who were recruited from BIPOC organizations to increase the diversity of people in leadership roles in outdoor spaces. A second course was offered in the fall but due to low registration was not hosted.

In February, those trained in the Field Leader- Hiking course were offered the opportunity to take the FL-Winter course to enhance their leadership skills in that season. Three leaders took this training which was also hosted at Forestview. A big thank-you to Donna Campbell, who continues to lead the OCC courses. New courses are being planned for the spring of 2024, including a one-day add-on FL-Paddling leader training.

In the winter, we offered a micro-grant program for organizations to activate programming aimed at opportunities for more Islanders to explore outdoor spaces with a particular emphasis on initiation into outdoor spaces for those who have generally not used these spaces or who have felt unwelcome in them. Four organizations were approved for projects ranging from purchasing bicycle helmets to enhancing green space to transportation options to trails.

Priority 3: Supportive Environments - To Ensure the Provision of Supportive Physical & Social Environments that Encourage Participation in Recreation & Build Strong, Caring Communities

Canadian Certified Playground Inspections

In the spring of 2023, Dave Tompkins was trained as a Canadian Certified Playground Inspector through the Canadian Playground Safety Institute and joined the Recreation PEI staff as the in-house playground inspector. Due to unforeseen circumstances, he was not able to complete inspections in 2023. However, Recreation PEI enlisted the services of Scott MacEwen, also a CCPI, to complete 5 playground inspections for this year. We continue to offer 1 complimentary playground inspection per year to all our members.

Healthy Rinks

Recreation PEI continues work on an initiative to support healthier food and beverage options in recreation facilities. As a follow-up to a report based on the results of a canteen scan and a toolkit for facilities to enact some of the recommendations created in previous years, a seed funding program was established to assist with the initial equipment costs necessary to add healthier items to the menu. Working with the group's dietician advisor, a menu book was created to offer examples of items which could be offered in recreation facility canteens. These were delivered to all arenas on PEI. The response to this initiative has been lukewarm but a new round of applications was opened with an early spring deadline. It is expected that several applications will be received in this round.

Facility Outreach

In March of 2024, Recreation PEI set out across PEI to meet with different facility operators. Five separate lunches were held in different locations and operators were invited to attend the one most convenient for them. Twenty-six staff and volunteers attended representing 16 recreation facilities. These lunches provided staff the opportunity to connect more directly with facility members and allowed us to hear about their triumphs and concerns. It allowed us to share information on different initiatives that Recreation PEI is working on including the healthy rinks grant and the Anti-Racism Charter. It also provided a valuable networking opportunity for the members to connect with each other and share solutions to similar problems.

Priority 4: Recreation Capacity - To Ensure the Continued Growth & Sustainability of the Recreation Field

Arena Operators Training

Recreation PEI hosted the East Coast Arena Training (ECAT) –Level 2 Course on June 28th and 29th, 2023, at the Eliyahu Wellness Centre Canada Games Place in North Rustico. A total of 12 ice technicians, arena operators, and managers throughout the region attended the two-day course. ECAT is delivered in partnership with Recreation New Brunswick, and the Level 1 course was hosted June 5th & 6th, in Fredericton, New Brunswick, with 24 attendees.

The course covers 3 different topics of arena operation: refrigeration led by Paul Taljaard from BERG Chilling Systems, ice-resurfacing led by Everette Tucker from Saunders Equipment Ltd., and ice technician led by Bernie Hurley from the Town of Oromocto.

Recreation PEI is preparing to host the ECAT Level 1 course at the Eliyahu Wellness Centre in North Rustico in June 2024 and Recreation New Brunswick will host the Level 2 course in Quispamsis, New Brunswick.

Anti-Racism Charter

Recreation PEI successfully applied for a grant from the provincial Anti-Racism Fund in 2023, to look at adopting an Anti-Racism Charter. This initiative is inspired by the work done by Recreation NS and their launch of a Charter in the fall of 2022. A workshop session was held at the 2023 AGM at which the membership agreed that adopting a similar Charter would be of benefit. A working group was established that reviewed the existing Charter and made updates to adapt it to PEI. The working group also began to create an action plan based on the feedback from the membership. An official launch of the PEI Anti-Racism Charter is scheduled for the spring of 2024 and a draft of the Recreation PEI working plan will be available at the 2024 AGM. Recreation PEI is also seeking to consult with BIPOC-serving organizations to review the action plan and identify gaps or edits needed.

Communications Coordinator

In 2023, Recreation PEI was able to secure funding to create a new staff position to manage the organization’s social media presence and communications. The Communication Coordinator role was established and Andrew Stetson was hired in late October. The purpose of the position is both to better champion the work being done by the organization but also to highlight the good news that’s happening in Island communities because of the recreation sector. A communications plan has been developed to streamline the work.

The coordinator also developed a yearly calendar to highlight different days and celebrations throughout the year which could be used to amplify organizational messages. This calendar was also shared with our members along with corresponding posts. This allowed others in the sector to share similar messages at similar times, without having to create it themselves. It has allowed Recreation PEI to amplify messages to a broader audience and helped those who may not have the capacity to focus on broad messaging. Since this strategy was implemented in January, there has been a considerable increase in engagement on Recreation PEI’s social media.

Atlantic Recreation & Facilities Conference and Trade Show (ARFC)

The ARFC is hosted in partnership between the five provincial recreation and facilities associations and rotates between provinces every two years. The 2024 Atlantic Recreation & Facilities Conference and Trade Show will be held in Fredericton, NB, May 29th – 31st, 2024 with an expected 180 delegates from across the Atlantic provinces and beyond attending.

Recreation PEI is responsible for planning the program for the 2024 event. Work began on this in early 2023, with a committee of representatives from all 4 provinces. A theme of “Adapt & Elevate” was selected to encompass all of the challenges the sector has faced in the past few years and how we have responded to these challenges. The opening keynote will be delivered by Brock McGillis, an openly gay former professional hockey player who continues to work in the sector through coaching, training camps, and delivering inclusion seminars. Other key topics include naming rights, preparing for disasters, addressing homelessness in recreation spaces, and others. There will also be roundtable opportunities for aquatics, programming, and facility staff.

HIGH FIVE®

Recreation PEI continues to be the High Five Authorized Provider on PEI. New trainers took training in November 2022 and worked on completing the final requirements to be fully certified to deliver the Principles of Healthy Child Development (PHCD) module. This included a co-facilitation which was completed in partnership with BGC Charlottetown in June 2023 at which 3 trainers completed the requirement. Those trainers then worked with BGC Prince County staff to complete their co-facilitation requirement. In addition to these two training opportunities, two more PHCD sessions were hosted in June. A total of 93 staff took part in the training this year.

There continue to be some challenges with the delivery model and administration of this program. At the instigation of the 4 Atlantic partners, Parks & Recreation Ontario, who own the High Five program, began a review of the program in the fall. Recreation PEI has participated in this review and is awaiting the expected report.

**Recreation PEI
Annual General Meeting- Minutes
August 22, 2023
Five Eleven West, Summerside**

1. Vice President, Amy Robertson called the meeting to order at 12:43am.

Attendance: Kim Meunier, Amy Robertson, Kevin Crozier, Aaron Bedour, Cathleen MacKinnon, Holly Bernard, Paula Sark, Valerie Vuillemot, Griffin Hughes, Chryshawnda Adams, Jo-anne Wallace, Francois Caron, Rachel Arsenault, Allan Wood, Kester Nurse Lynn-Anne Hogan, Cory Thomas, Shirley Beebe, Alejandro Gutierrez Hernandez, Cali Pineau, Ryan Steele, Katy Stordy, Shane Bernabe, Keith Tanton, Lloyd Phillip, Matt Smith and Connor Cameron.

2. Amy Robertson presented the 2021-22 AGM Minutes, as in AGM Report.

Motion to approve, as presented: M/S: Holly Bernard/Paula Sark
APPROVED

3. Business arising from the Minutes: NIL

- 4.a. Kim Meunier presented the President's Report, as in AGM Report.

- b. Valerie Vuillemot presented the Executive Director's Report, as in AGM Report.

- c. Kevin Crozier presented the 2023-2024 Budget as in AGM Report and the 2022-2023 Draft Financial Statements as prepared by the auditors, MRSB.

Motion to accept all reports, as presented: M/S: Rachel Arsenault/Holly Bernard
APPROVED

5. By-law Amendments

Motion to approve by-law amendments, as presented: M/S: Allan Wood/Paula Sark
APPROVED

6. Amy Robertson presented the Nomination Report, as in AGM Report.

Q: Amy Robertson called once, twice, three-times for nomination from the floor – None.

Q: Amy Robertson asked if all nominees accept, as presented – Unanimous.

Motion to approve, as presented with the correction of changing Trent Williams to Aaron Bedour: M/S: Cory Thomas/Allan Wood
APPROVED

7. Kevin made a motion to assign MRSB Chartered Professional Accountants as the auditors for the coming fiscal year.
Motion to approve, as presented: M/S: Kevin Crozier/Holly Bernard
APPROVED

8. Motion to Adjourn: M: Cory Thomas
APPROVED

Proposed Amendments to the Bylaws

Amendment 1- change to existing bylaw

Current bylaw:

ARTICLE III - MEETINGS

SECTION A - Annual General Meetings and Special General Meetings

1. The Annual General Meeting shall be held annually within 90 days of the end of each fiscal year, at a place and date to be determined by the Board of Directors, and notice of each Annual General Meeting shall be sent to all members, no later than 14 days prior to the Annual General Meeting.

Suggested Amendment:

ARTICLE III - MEETINGS

SECTION A - Annual General Meetings and Special General Meetings

1. The Annual General Meeting shall be held each year between June and November and within 60 days of receiving the completed financial statements from the auditors, as the board or the chairperson may determine. Notice of each Annual General Meeting shall be sent to all members, no later than 14 days prior to the Annual General Meeting.

Rationale:

This timing change allows more time to complete the financial statements, with consideration to the auditing firm during the busier than usual tax deadline season from April to June.

Nomination Report

The following are offering for a one-year replacement position ending in 2025:

Kim Meunier – Director at Large
Vacant – Secretary

The following are offering for a two-year position ending in 2026:

Cathleen MacKinnon – President
Amy Robertson – Vice President
Cali Pineau – Director at Large

The following Directors are re-offering for a two-year term ending in 2026:

Ryan Steele – Director at Large
Holly Bernard – Director at Large

The following Directors are entering the 2nd year of a two-year commitment ending in 2025:

Kevin Crozier - Treasurer
Stephanie Knickle - Director at Large
Dave Tompkins - Director at Large

Honourary Lifetime Members

Our Corporate Members 2023-2024:

Recreation PEI is a volunteer, not-for-profit, provincial association dedicated to promoting, coordinating, and encouraging all facets of recreation, physical activity, and facility management on PEI. We encourage the increase of physical activity and recreation in many settings in order to ensure that our province has active homes, active communities, active schools, and active workplaces.

Our Vision: All Islanders move more and sit less, more often.

Helping Islanders Get Active & Stay Healthy!

Strategic Priorities:

- To foster active, healthy living through recreation
- To help people connect to nature through recreation
- To ensure the provision of supportive physical and social environments that encourage participation in recreation and build strong, caring communities
- To ensure the continued growth and sustainability of the recreation field

*All priorities should include actions to increase inclusion and access to recreation for populations that face constraints to participation.
